

More Energy Efficient

The backlight adopts the light-emitting type of ELED, requiring fewer LEDs for lower energy consumption and more energy-saving.

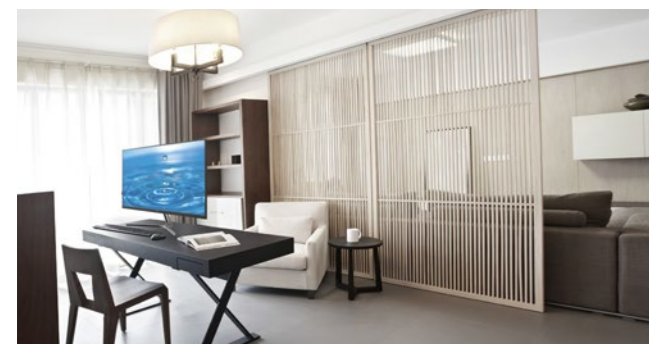

Richer and More Practical Functions

UNV provides rich interfaces, including VGA and HDMI, to meet your daily office and home use needs.

Still Clear and Bright When Viewed Obliquely

Wider viewing angle allows you to see perfect picture quality even at a biased location, improving the collaboration efficiency of your work.

Healthy Eye Care to Reduce Fatigue

Our low blue light feature reduces harmful wavelengths emitted without sacrificing color composition, ensuring healthy eye care.
